

Subx: Take Control of Your Subscriptions

Introducing Subx, the smart subscription tracker app. Built with Flutter, Subx helps users manage subscriptions, track renewals, monitor payments, and prevent overspending. Gain control over your digital subscriptions and financial habits.

by Amor

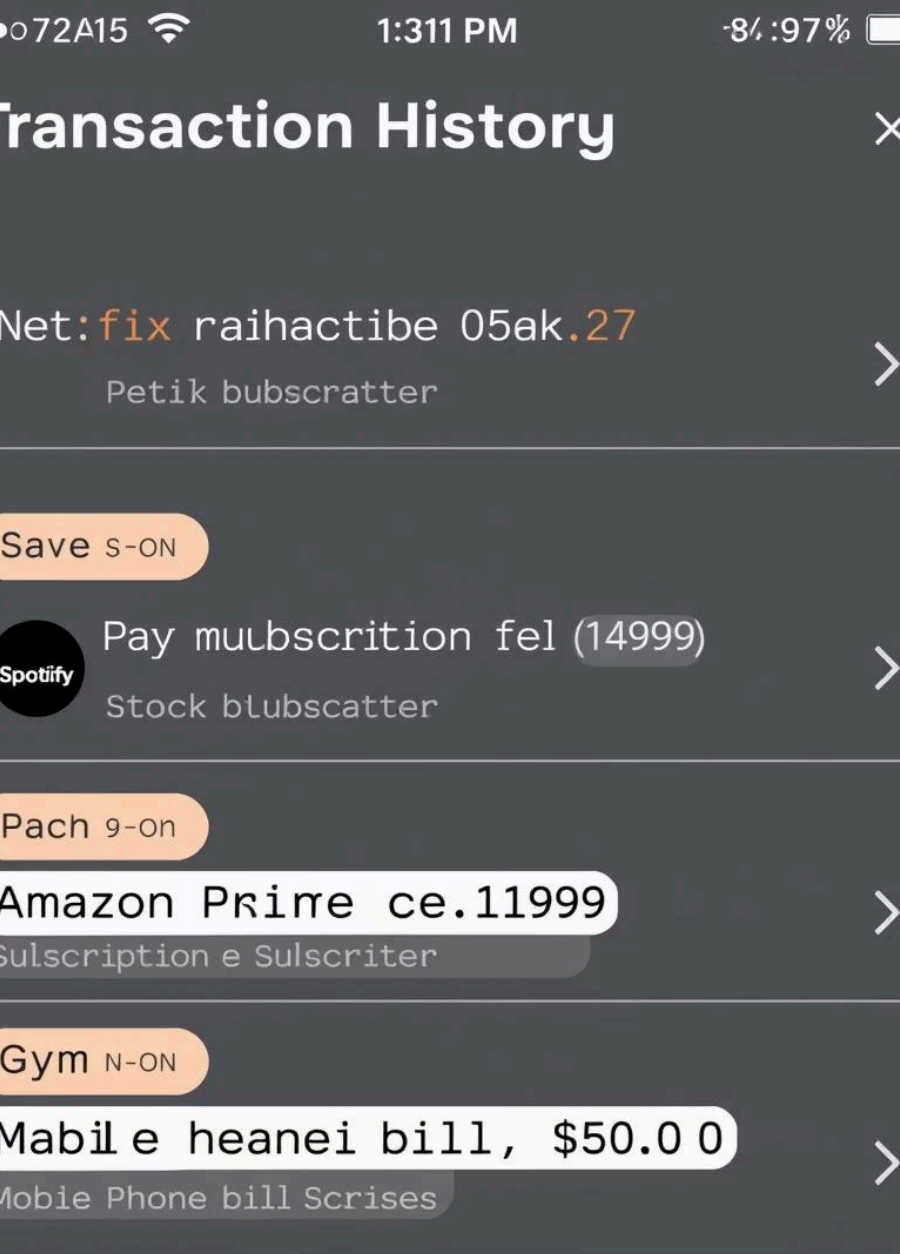

Track Renewal Dates

Never Miss a Renewal

Effortlessly track all your subscription renewal dates in one centralized location.

Automatic Reminders

Receive timely reminders before each subscription renews, preventing unwanted charges.

Monitor Payment History

View Payment History

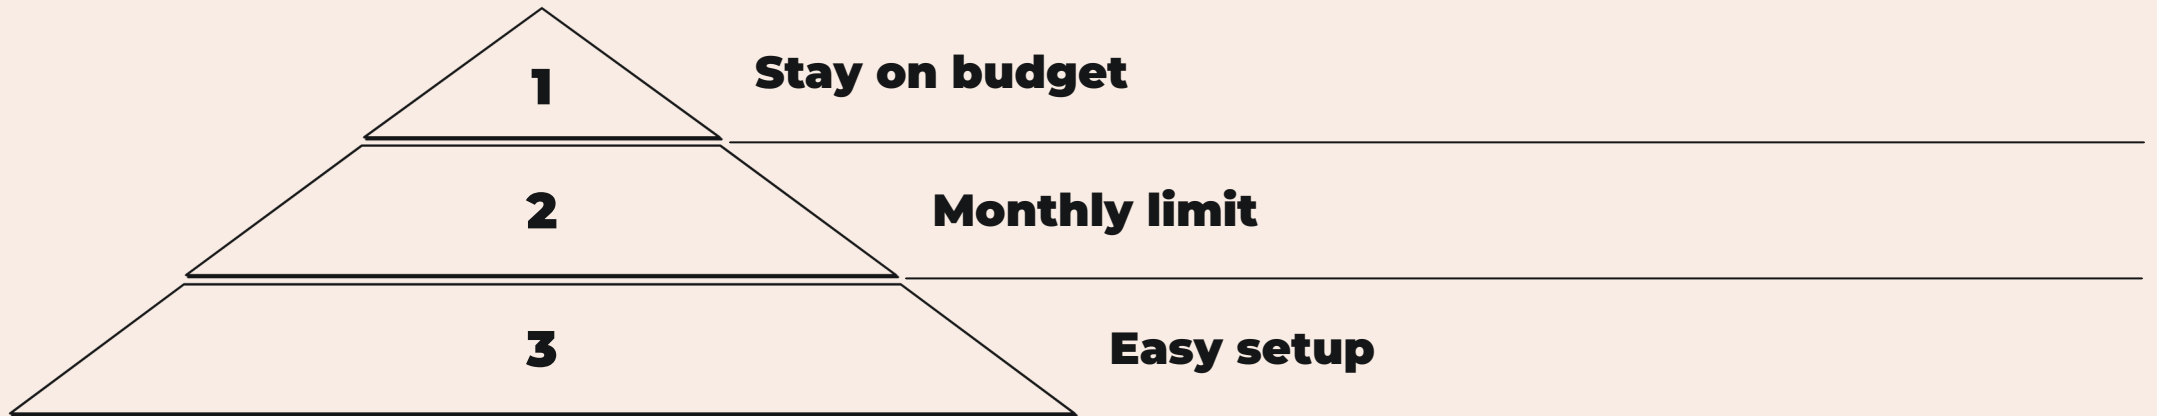

Access a comprehensive history of all subscription payments.

Detailed Transactions

Easily filter and search transactions to understand your spending patterns.

Set a Monthly Income Limit

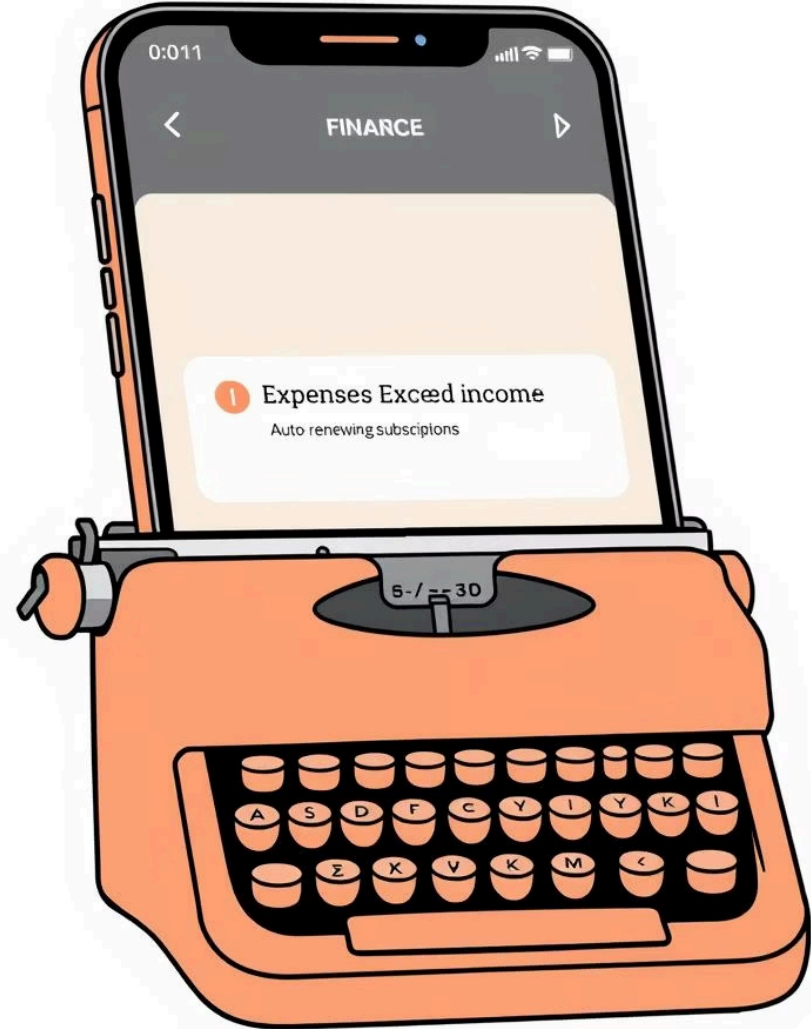

Expenses vs. Income Reports

Monthly Reports

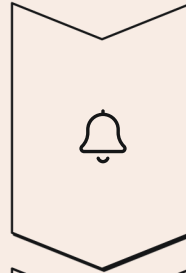

Visualize your monthly expenses versus income with detailed reports.

Track Spending

Get a clear overview of where your money is going each month.

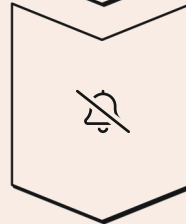

Prevent Overspending

Exceed Spending

Get notified when expenses exceed income, so you don't overspend.

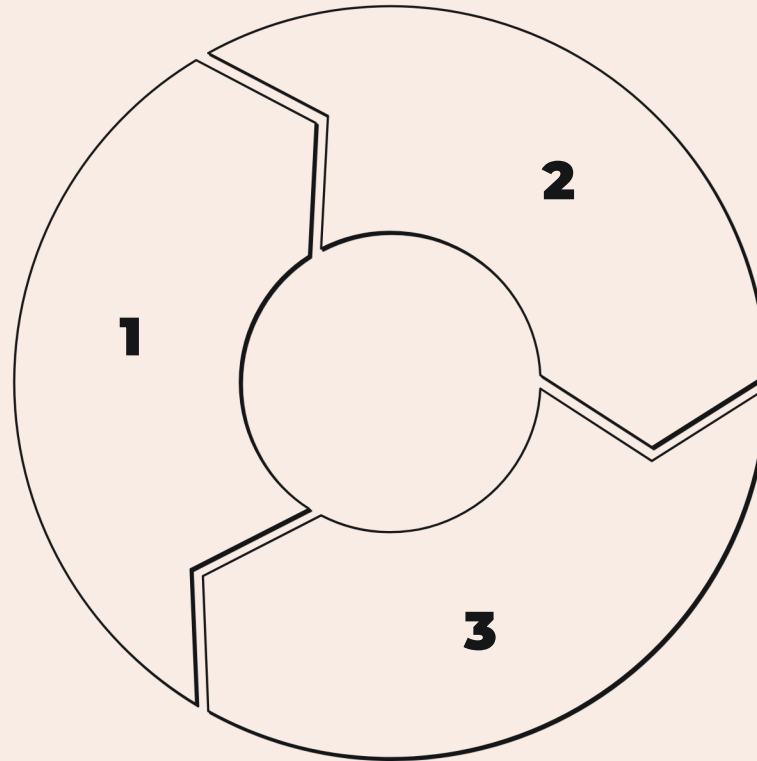

Smart alerts

Get alerts when subscriptions auto renew.

Future Scope: Centralized Payment

One-stop payments

Manage and control all payments from one app.

Security

Keep your data safe

Easy to use

Simple to set up.

Key Takeaways

Full Control

Gain complete control over your digital subscriptions.

Financial Insights

Understand your spending habits.

Prevent Overspending

Avoid unwanted charges and stay within your budget.
